

Toronto West Implant Continuum “TWIC”

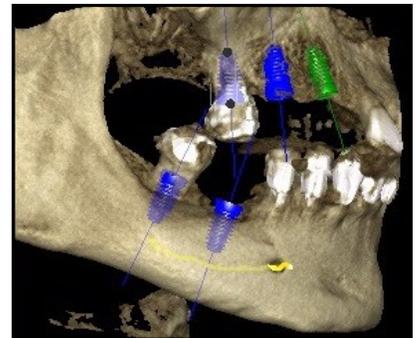

A Movement from Theory to Practice

There are many excellent implant training programs available, both in Canada and United States. After obtaining a solid foundation in the field of implant dentistry through courses, countless hours of theory and some hands-on training on models, it is not always easy to start placing implants on your own. Many clinicians try to begin with simple and straightforward cases, that are safe and predictable on every level.

These ideal cases are usually difficult to find!

As time passes and the information you gained from your training fades, it becomes even more challenging to treatment plan and confidently perform more complex cases. If this sounds familiar and you would like to be a part of a program that can help you achieve your goals in implant dentistry, then the Toronto West Implant Continuum is exactly what you are looking for.

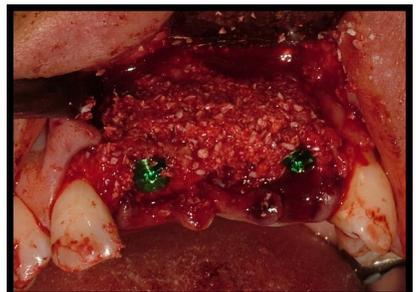

More than a Study Club

- 4 Saturday Sessions—Small group learning environment
- Including - 2 “hands-on ” surgeries on your own patients
- 1 Bone Spreading Workshop and 1 Observation Session
- Ongoing clinical support before and after the sessions
- You may bring your own assistant to observe, take notes & learn what they need to do in your office to set-up and become valuable members of your surgical team

**Dr. Svoboda will help you
“find cases” in your own dental practice,
that you thought were not ideal!**

**We have an “on-site Planmeca CT” to help you
plan your surgeries for Free**

**Sponsors: BioHorizons, Planmeca, Patterson Dental
& Diamond Dental Studio—Specializing in Implant Prosthetics**
Implant Prosthetics Module Coming June 2014 — by Dr E Svoboda & Dr S Weiss

Devoted to the Advancement of Implant Dentistry

A Movement from Theory to Practice

Dr. Emil Svoboda graduated from the University of Toronto with a PhD and DDS. He practices General and Implant Dentistry in his clinic in Brampton, Ontario. He has earned Fellowships with the Academy of General Dentistry (www.AGD.org) and the American Academy of Implant Dentistry (www.AAID.com). He is also a Diplomate with the American Board of Oral Implantology/Implant Dentistry (www.ABOI.org). Dr. Emil Svoboda has published dental research articles, has lectured worldwide about implant dentistry and has been placing and restoring dental implants for over 20 years. Investigate his www.bonespreadingworkshop.com website. Dr. Svoboda was recently awarded the Honoured Fellow designation for “significant contribution to implant dentistry” by the American Academy of Implant Dentistry. He was also given the Award of Merit by the Ontario Dental Association “for significant contribution to organised dentistry”. He will help you place implants in his practice environment.
